

Asian Elephant 7 Fun Facts...

Their huge trunks can be gentle enough to pluck a blade of grass and strong enough to tear down a tree.

They use their large floppy ears to fan themselves to keep cool.

They have large padded feet so they can walk quietly.

They can be 21 feet long, 10 feet tall and weigh up to 11,000 pounds.

Sadly they are listed as an endangered species.

They can be found in India, Sri Lanka, Indonesia, Thailand, Cambodia and China to name a few.

They are vegetarians and even like to eat tree bark.
